Data analytics developer with 15+ years of full life-cycle software engineering experience, aiming to leverage analytical and leadership skills, along with attention to detail, to guide business operations and decision-making.

SKILLS

Technical: SQL, Excel, VBA, Python, Pandas, matplotlib, Seaborn, JSON, APIs, Git/GitHub, MySQL, SQLAlchemy, HTML/CSS, Bootstrap, Beautiful Soup, MongoDB, JavaScript, D3, Leaflet, CartoDB, Tableau, Hadoop, C, MS Office, MAC OS

Leadership: project management, oral and written communications, budgets, schedules, staffing

EDUCATION

The George Washington University **Arlington, VA**
Certificate, Data Analytics and Visualization (to be completed March 2018) **March 2018**
An intensive 24-week bootcamp dedicated to data analytics and visualization.

Rutgers University **New Brunswick, NJ**
Bachelor of Arts, Computer Science **May 1984**
Phi Beta Kappa; Henry Rutgers General Honors Program; GPA: 3.5/4.0

PROJECTS

CitySlip **Fall 2017**

- Worked in team of 3 to analyze a city to provide a subjective score for a user to determine whether to move there
- Used Python, Pandas, matplotlib, JSON, and various APIs to collect data about city
- <https://github.com/miriambrk/CityScore-ZipSlip-.git>

Weather Analysis Dashboard **Fall 2017**

- Analyzed how weather varies based on proximity to the equator
- Used Python, Pandas, matplotlib, JSON, and the OpenWeather API to collect and analyze weather data; HTML/CSS and Bootstrap to create the dashboard; Github to deploy
- <https://miriambrk.github.io/webhw/index.html>

WORK EXPERIENCE

Gesher Jewish Day School **Fairfax, VA**
Committee on Trustees Member, Past VP Fundraising, and Past President **June 2003 - Present**

- Trained 6 professionals to use donor database, improving pledge collections by 50%. Developed and analyzed customized reports, driving fundraising strategies
- Led fundraising efforts, recruited and trained multiple teams of over 40 volunteers to raise significant funds with an annual increase of 10% and up to \$500K per year
- Led Executive Committee in key decision making, strategic planning, and stakeholder communication, strengthening the Board and increasing community outreach and engagement

Sweet Wraps**Vienna, VA****Founder and Owner****October 2001 - Dec 2012**

- Designed, implemented, and maintained company website for displaying and ordering personalized candy bar wrappers for all occasions

Systems Engineering Services Corporation**Reston, VA****Senior Systems Analyst****April 1995 - July 1999**

- Engineered and rewrote complex accounting system from inefficient code to consolidated Sybase SQL stored procedures, reducing execution time from 30 hours to 10 minutes weekly.
- Interpreted oil trading business needs and designed, coded, and tested technical solutions as part of 40-person team

Lockheed Martin Corporation (formerly IBM Federal Systems)**Gaithersburg, MD****Advisory Programmer****August 1984 - April 1995**

- Technical lead for 10-person team developing strategies and prototypes to re-engineer complex mainframe (classified) software systems onto UNIX platform; established and documented software standards and procedures for consistent development for 80+ person team
- Developed and integrated (classified) applications using C, Sybase, and SQL, delivering enhanced functionality of existing mainframe systems
- Designed, coded, and tested large-scale mainframe (classified) systems, as part of 300+ person project, developing thousands of lines of code. First-hand experience with all phases of product development life cycle
